

Markus Kupferblum - Director, actor

Propuesta de talleres

1. Commedia dell'Arte (2-3 semanas)

El conocimiento de la Commedia dell'Arte es crucial tanto para actores de teatro como especialmente para directores de ópera. Las leyes y reglas de la commedia siguen aún siendo valiosas y representan una base de un oficio desde el cuál es extremadamente útil acercarse a las obras de Shakespeare, Moliere, Chejov, al teatro contemporáneo y a la ópera.

Participo en un grupo que trabaja sobre los aspectos de la dramaturgia de la commedia. Los resultados de estas investigaciones son usados en la puesta en escena del drama moderno como así también cine y telenovelas.

Aprenderemos a usar las máscaras de la commedia y a conocer a los 9 personajes principales, sus pasiones, sus movimientos y sus vicios.

Aprenderemos acerca de la historia y tradición de la commedia y su influencia en la producción de teatro contemporáneo, cine y televisión.

Aprenderemos a usar las leyes dramáticas de la commedia. Aprenderemos "lazzi" e improvisación.

Prepararemos una commedia para presentar nuestro trabajo al final del taller.

2. Trabajo con máscaras (2 semanas)

Las máscaras exageran la expresión facial y fuerzan al cuerpo y la mente a moverse y pensar en formas muy precisas. El trabajo con la máscara nos ayudará a desarrollar personajes humanos, aún si se actúan sin las máscaras al final.

Aprenderemos a usar máscaras dinámicas para encontrar la sensibilidad de movernos con una máscara.

Usaremos máscaras neutras para desarrollar nuestra fantasía e imaginación, como también el ritmo de nuestro cuerpo y aprender como enfocar nuestra expresión.

Usaremos máscaras que haremos nosotros para exagerar nuestros sentimientos.

Usaremos máscaras tradicionales balinesas para ayudarnos a desarrollar un rol, que será actuado al final sin máscaras.

3. Payasos (2-3 semanas)

El trabajo de payaso es la confrontación con la personalidad del actor, que traspasa mucho el límite normal del trabajo teatral. Trataremos de encontrar aproximaciones muy personales a cualquier clase de “problemas” y a sus posibles soluciones. La gente se ríe sobre intentos honestos y a veces torpes de resolver problemas reales, pero no se ríe de personas que se creen graciosas.

Trataremos diferentes formas de descubrir problemas reales y sus soluciones, haremos juegos para entrenar nuestro instinto a reacciones lógicas y simples. Nos divertiremos mucho.
